

Criterion 4 - Infrastructure and Learning Resources

4.3 IT Infrastructure

4.3.4 Facilities available for e-content development

e-Content Development - MKCE Media Centre

- M. Kumarasamy College of Engineering Media Centre is developed to facilitate the video recording using the Lecture Capturing System (LCS).
- The media centre is equipped with the Panasonic PTZ Camera AW-HE40HWEJ-HDMI Output, Black Magic Atem Mini Pro (Switcher) and Wacom Tablet DTU-1141B/KO-ZX for capturing clear and sharp videos. The media centre has two full-time regular technicians who work on video recording and editing using Flimora - Video Editor Software along with OBS Studio Multi Screen recording software.
- The video recording centre has a green matt backdrop which helps the editor to change the background colour after recording. Also, the centre facilitates with Sennheiser wireless mic transmitter and receiver to enhance the audio quality during video recording.
