

# SOLAR PLANT SOFTWARE DETAILS

The screenshot displays the Solar-Log 2000 GPRS web interface. At the top, a navigation bar includes 'YIELD DATA', 'DIAGNOSTICS', and 'CONFIGURATION'. The main header area features a 'Welcome to the Main Menu of the Solar-Log 2000 GPRS' message and the Solar-Log logo. A sidebar on the left provides navigation options: 'Current values', 'Production', 'Consumption', 'Balances', and 'Finances'. The central content area is titled 'Yield data / Balances / Year' and shows a bar chart for the year 2020. The chart displays three data series: Production kWh (yellow), Consumption kWh (red), and Self-consumption kWh (green). The Y-axis ranges from 45,000 to 55,000 kWh. A legend on the right side of the chart allows users to 'Show all' or 'Hide all' data series. The footer of the interface contains copyright information for Solare Datensysteme GmbH and the device's serial number (SN: 1888547595) and build revision (13288). The Windows taskbar at the bottom shows the system clock as 10:58 on 20-11-2020.
