

M.KUMARASAMY
COLLEGE OF ENGINEERING
NAAC Accredited Autonomous Institution
Approved by AICTE & Affiliated to Anna University
ISO 9001:2015 & ISO 14001:2015 Certified Institution
Thalavapalayam, Karur-639 113, Tamilnadu.

7.3 INSTITUTIONAL DISTINCTIVENESS

M.Kumarasamy College of Engineering is a well renowned institution which has a vision to emerge as a leader among the top institutions in the field of technical education by providing smart technocrats with empirical knowledge. Though MKCE is located at a rural area, it gives a very good exposure to the students for acquiring engineering knowledge and developing their own skills.

Starting from first year to final year, MKCE provides splendid platforms for the emerging engineers to acquire adequate knowledge and skills in different areas at their own pace. In the first year, the students are offered Bridge course that includes ice-breaking session, screening of the students based on their English competency through a diagnostic test and training is given to them in different streams according to their competency level. Through this course, students improve their social and creative skills and help them to accustom to the new environment and perform better in all the areas. Later, they are trained in Listening, Speaking, Reading and Writing (LSRW), the four basic skills of English in business context which helps them obtain a most valuable certificate through BEC (Business English Certificate) course followed by STEP Exam during their second year. Besides English language, students are encouraged to learn Hindi and Japanese languages which are taught here at different levels as equipping language skills enhances the confidence level of the students and helps them to seek jobs in India/Japan.

In order to improve the cognitive skills of the students, various deeds like presentation day, mini projects, club events, industry internships, Industry project guidance, various training programs etc. have been incorporated along with their regular academic routines. In addition to that, Students have also been provided with ample guidance to do online courses like NPTEL, SWAYAM etc. and value added courses pertaining to their department for profound

understanding of their subject of interest.

Moreover, One credit courses like General Aptitude (I &II Sem) and Career skill development (III-VI sem) are offered for all B.E/B.Tech/MCA students to enhance their employability skills. Also, they have been amply motivated to utilize the new online platforms like Hacker rank and Guvi for improving their coding skills and creating a sense of self-learning attitude among the students. To meet the industry's standard recruitment criteria ,Integrated placement training has been offered to the students which includes employability skill enrichment courses on communication skill, soft skill ,quantitative aptitude and reasoning skill, coding skills by using C,C++,JAVA, Python programming languages. To help them reach the national level expectations, Pre-final year and final year B.E/B.Tech/MCA students have been trained to take up AMCAT and COCUBES Assessments. The students' analytical skills are also enriched through speed maths training. All the above trainings help the students to sharpen their skills better and face the interview confidently.

On the other hand, the Students who opt for the higher education and try for competitive exams are provided with the opportunity of getting guidance and support from the experts through awareness programs organized by the Students development Cell. Recently, ICT skill has been launched through which the students explore various questions that are being tested in the competitive examinations. This tool makes them feel confident to clear competitive examinations like GATE, UPSC etc.

In order to improve the entrepreneurial skills of the students and to provide real time experience,several workshops / seminars / interaction programs with entrepreneurs and professionals etc have been conducted through IEDC,EDC,IIC,EDII.

Thus the keen focus on the students' skill development in all the areas helps to bring out the holistic development among them which in turn makes the institute stand distinctive among the other top institutions.
